*If the implementation is easy to explain, it may be a good idea.*

## Education

- 2022–2024 Master of Science, Physical Chemistry, Department of Chemistry, University of Crete  
9.86 (Excellent)
- 2018–2022 Bachelor of Science, Chemistry, Department of Chemistry, University of Crete  
8.64 (Excellent)  
(First of the class — obtained in 3.5/4.0 years)

## Master thesis

- Title From the Potential Energy Surface to Gas Adsorption via Deep Learning  
Supervisor George E. Froudakis  
Description Developing a deep learning based method for predicting gas adsorption in porous materials.

## Bachelor thesis

- Title Screening of MOFs for H<sub>2</sub> Storage via Machine Learning  
Supervisor George E. Froudakis  
Description Developing a machine learning based method for fast screening of large databases, in order to identify top performing MOFs for hydrogen storage.

## Scholarships – Awards

- 2024 Postgraduate fellowship, Independent Power Transmission Operator S.A. Fellowship  
2024 Postgraduate fellowship, Maria Michail Manasaki Bequest Fellowship  
2023 Chatzimarini Award, Department of Chemistry, University of Crete  
2021–2022 Undergraduate scholarship, Stamatiou Foundation  
2020–2021 Undergraduate scholarship, Stamatiou Foundation  
2019–2020 Undergraduate scholarship, Stamatiou Foundation

## Publications

## Published

- [1] Antonios P. Sarikas, George S. Fanourgakis, Konstantinos Gkagkas, and George E. Froudakis. "Comparison of machine learning approaches for the identification of top-performing materials for hydrogen storage". In: *Sustainable Chemistry for the Environment* 5 (Mar. 2024), p. 100056. ISSN: 2949-8392. DOI: 10.1016/j.sceenv.2023.100056.

## Software development

 python™ package for deep learning on molecular point clouds

- [Source code](#)
- [Documentation](#)

 python™ package for parallel calculation of energy voxels

- [Source code](#)
- [Documentation](#)

---

## Presentations – Posters

- [Chatzimarini Seminar 2023, Heraklion, November 2023](#)
- [1st Mediterranean Conference on Porous Materials , Rethymnon, May 2023](#)
- [Chatzimarini Seminar 2022, Heraklion, November 2022](#)
- [XXXVI Pan-Hellenic conference on Solid-State Physics and Materials Science, Heraklion, September 2022](#)

---

## Workshops

- [Computational Materials Science, National Kapodistrian University of Athens, Online, December 2023](#)
- [Computational Materials Science, University of Ioannina, Online, December 2022](#)
- [Computational Materials Science, University of Patras, Online, December 2021](#)
- [DCMS Materials 4.0 Summer School, TU Dresden, Online, August 2021](#)

## Working experience

- 2024 Teaching assistant on the Laboratory of Physical-Chemistry I, Department of Chemistry, University of Crete
- 2023 Teaching assistant on the Laboratory of Physical-Chemistry II, Department of Chemistry, University of Crete
- 2023 Teaching assistant on the Laboratory of Physical-Chemistry I, Department of Chemistry, University of Crete

## Languages

- English Proficiency, University of Michigan
- Greek Native language

## Computer skills

- Operating Systems Linux, Windows
- Programming Languages Python, Fortran
- Other  $\LaTeX$ , MSOffice
